## FOR IMMEDIATE RELEASE

### UNDESIGNATED PARKING AREA ON US 395 NEAR SUSANVILLE

**REDDING** – In an effort to enhance safety at an undesignated parking area near the connection of US 395 and SR 36 at Richmond Road, near Susanville, the California Department of Transportation (Caltrans) will be installing barricade. The barricade (K-rail) will prevent motorists from entering and exiting this dirt area directly from US 395, instead directing them to enter and exit via Richmond Road. Entering or exiting a controlled access state highway other than at an official intersection, is prohibited by law.

The barricade is a temporary solution to improve the safety of motorists using this area while local agencies explore the possibility of installing an official area for parking. For more information please contact the Public Information Office at 530-225-3260.
